*Corrected  
July, 1950 according  
to MG MA-5910.  
JH*

1. After a review of the CANUCK file here, it has been decided that this project should be discontinued if this has not already been done. We do not like to make arbitrary decisions in such cases, however BELVIDERE 6 must understand that we will not maintain a paid agent or informant when, at the same time, we know him to be working for another American intelligence agency. From our records, BELVIDERE 6's association with CANUCK has never been adequately classified. Paragraphs 2, 3, and 5 of MOX.N-8048 have not been fully answered. All the operational leads thus far turned up by CANUCK seem to have fallen by the wayside for one reason or another. In the final analysis, I believe this has been due to the fact that CANUCK is a professional intelligence promoter whose interests are primarily financial. It is clear that we will never have adequate control over CANUCK to enable us to utilize him as an interrogator or screener of Polish or other satellite refugees. MOX.N-4990 presents another argument against the use of this type intelligence agent.

2. It is requested that you submit a list of any expenditures you have charged to this project during the current period ending 30 June in order that we can make the necessary retroactive allocation of funds here. Your attention is again called to the payment of various operational expenses to non-approved agents or contacts of the BELVIDERE complex. In referring to such payments as MOX.A-1796, 1825, 2297, and others, you must indicate whether these expenses were charged to Gehara, and if not, they should be accompanied by a request that we allocate the necessary funds to the specific project against which you intend to charge them. Only the rigid adherence to this practice will prevent recurring financial accounting difficulties with regard to the BELVIDERE operation.

3. Please submit an agent service record on CANUCK.
